Safety and Efficacy

Claim Substantiation at Cliantha

Helps in Substantiating Marketing Claims:

Spots | Fine Lines | Wrinkles | Pores | Skin Texture | UV Spots

Brown Spots | Red Areas | Porphyrins

Multiple lighting conditions:

Helps in measuring both surface and sub-surface skin conditions.

UV Photography & Fluorescence Imaging:

Helps in assessing sun damage & reveal porphyrins accurately

Refined visualisation of sub-surface melanin and vascular conditions for all skin types and ethnicities.

More accurate detection of fine lines & wrinkles because of new wrinkle algorithm

Comparison Before Product Application to After Treatment

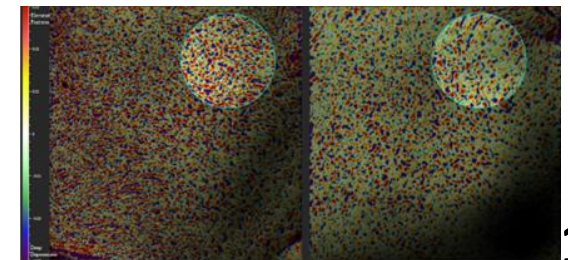

Fine Lines/Wrinkles of Crow's Feet Area

Pigmentation

Skin Texture

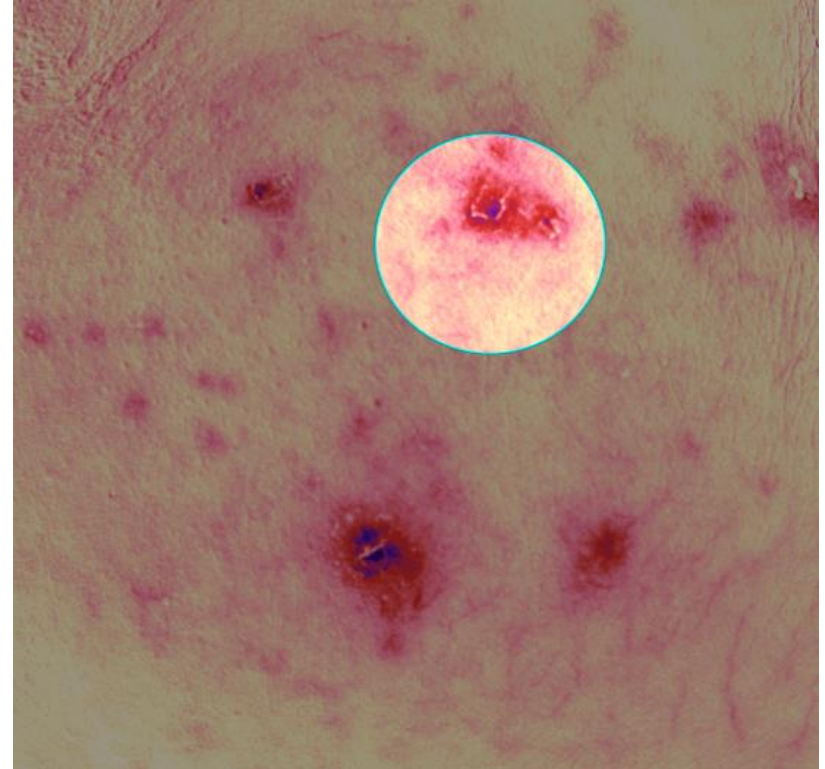

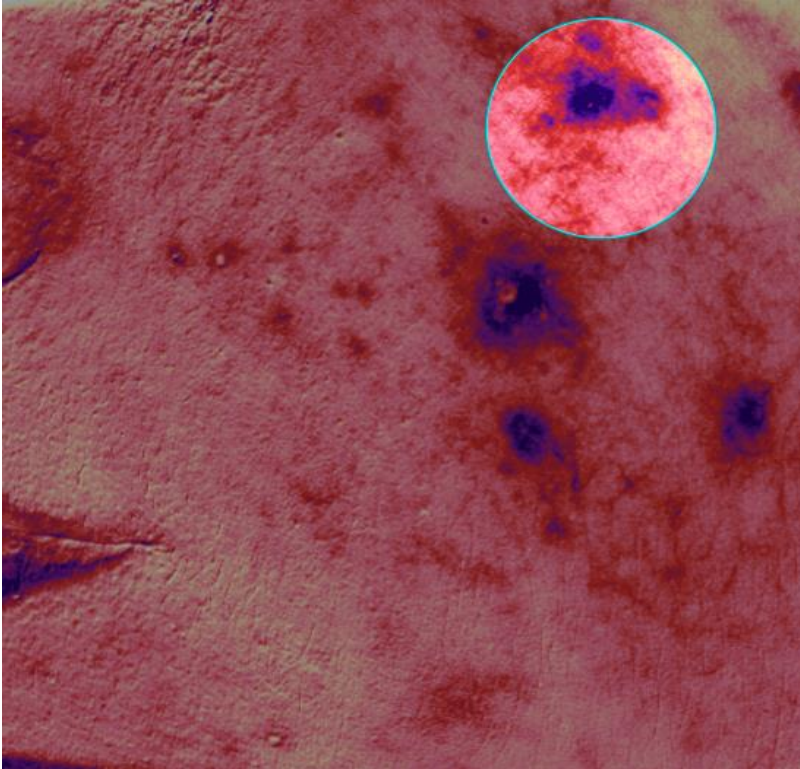

Antera 3D – Miravex - Before & After Images

Redness

Before

After

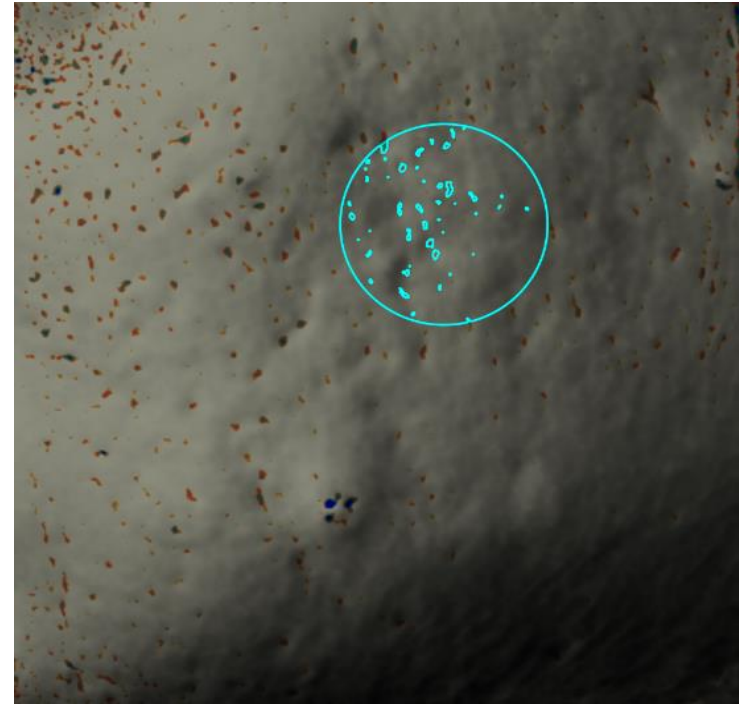

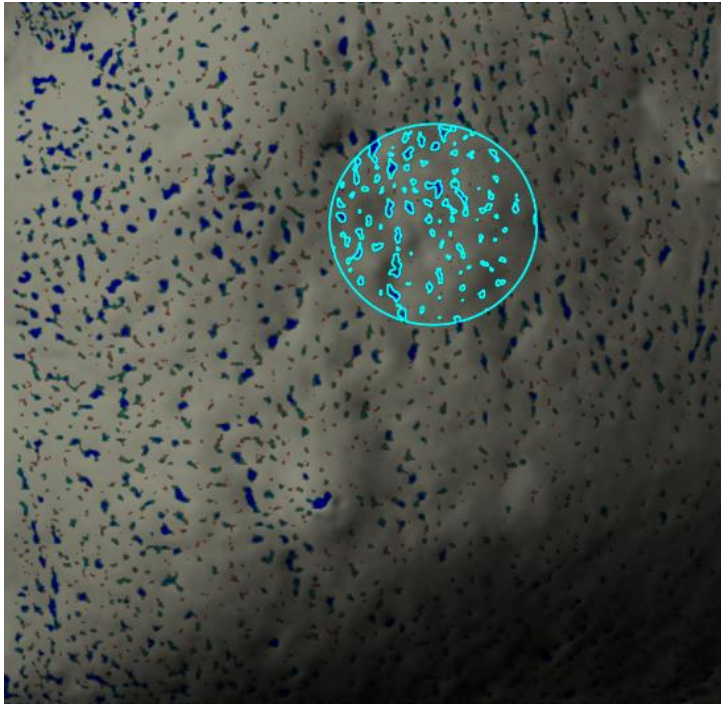

Blue colour indicates extreme redness and white color indicates no redness. Reduction in redness is evident by reduction in the intensity of blue color and red color.

Antera 3D – Miravex - Before & After Images

Pores

Before

After

The darker red colour and more blue spots represents the deep depressions in the skin. The reduction in pores is demonstrated by fewer blue spots and red colour .

Sr. No.	Study Title	Journal
1	Skin moisturizing and anti-acne effect of acne moisturizer in healthy adult subjects with mild-to-moderate acne-an open label, single arm clinical study.	Published by Scientific Scholar on behalf of CosmoDerma
2	Clinical study to assess efficacy and safety of Purifying Neem Face Wash in prevention and reduction of acne in healthy adults.	Journal of Cosmetic Dermatology published by Wiley Periodicals LLC.
3	Safety and efficacy of two botanical based topical anti-acne products in treatment of mild to moderate acne subjects.	Journal of Dermatology & Cosmetology
