

## 2026 Provisional Program March 18-19, 2026

### DAY 1 – Wednesday, March 18th, 2026

9h00 – Introduction

#### Session 1 – Hormones influence on Skin & Hair

9h10 – Anne Sirvent | EUROFINS

**Clinical Studies Conducted on Cosmetic Products Related to Menopause**

9h30 – Maya Naboulsi | CLARINS

9h50 – Simran Sethi | CLIANTHA

**A Data-Driven Clinical Study Design for Acne Management Formulations, Integrating Dermatological Gradings, Instrumental Assessments, and Participant-Reported Outcomes**

10h00 – Julie Przybylski | Pixience

**Clinical imaging redefined: new standards in cosmetic evaluation with the C-Cube**

10h10 – Dr Goya Analisis

*10h30 – Exhibitors and networking*

11h30 – To be defined

11h50 – To be defined

12h10 – DWI LABS

12h20 – To be defined

12h30 – To be defined

*12h40 – Lunch and networking*

## Session 2 – Exposome impact on Skin & Hair

14h10 – Sébastien Grégoire

**Beyond Cosmetics: Evaluating Topical Chemical Exposure and Its Impact on Human Health**

14h30 – Juliette Sage | LVMH

**Exposing the exposome: over a decade of research on the harmful effects of the exposome on the skin**

14h50 – Mr Bouchaia | CNRS

15h10 – Guido Mariotto | MIRAVEX

15h20 – J.S. HAMILTON

*15h30 – Exhibitors and networking*

16h30 – Miko Yamada | COHERENT SCIENCE

**Molecular Twin for Skin: Digital Twin-Based Personalization Through AI and Microbiopsy-Derived Transcriptomics**

16h50 – Cristiana Banila | MITRABIO

17h10 – Edouard Macé | EOTECH

**Evaluation of the effects of thermal stress on the surface condition of the hair by interferometric microscopy**

17h30 – Salvatore Del Prete | SERVICE BIOTECH

**Monitoring Heavy Metal Contaminants in the Human Hair Matrix: A Perspective for Cosmetic Safety Assessment**

17h50 – SCIBASE

18h00 – DELFIN

18h10 – To be defined

18h20 – End of day 1

*18h30 – Cocktail*

## DAY 2 – Thursday, March 19th, 2026

8h30 – Introduction

### Session 1: Hydration evaluation, what's new?

8h40 – Hassan Zahouani | LTDS

9h00 – PhD Trials

9h10 – Damae Medical

9h20 – Byome Labs

9h30 – Proderm

9h40 – Skinobs

*9h50 – Exhibitors and networking*

10h50 – Roundtable of experts

### Session 2: Skin & Brain Axis

11h20 – Dr Haykal

**To be defined**

11h40 – Arthur Derville, CEO Founder Loretta

**Using AFM nanoscale biomarkers to monitor skin stress responses during exam periods**

11h50 – To be defined

*12h00 – Lunch and networking*

13h30 – Mathilde de Torsiac | SISLEY

**A multi-dimensional approach for holistic appraisal of products acting on well-being**

13h50 – To be defined

14h00 – To be defined

14h10 – Eloïse Appelmans Gerardin – BRAIN IMPACT

**Cosmetic After-Feel Modulates Brain Activity in Sensory and Reward Networks: An fMRI Study**

*14h30 – Exhibitors and networking*

15h00 – Edith Filaire

**To be defined**

15h20 - Marie Pultier | SENSEVA

**I like, I like less, I like more or I don't like anymore...” Predicting consumer behavior from the affective trace of experience: Development of a specific methodology to assess the coherence of the emotional impact of cosmetic experiences.**

15h40 – Carine Bouton | GREENTECH

**Aspalathin-Rich Extract: A Peripheral Modulator of the Skin-Brain-Hormonal Axis for Holistic Anti-Aging Skincare in men**

16h00 – Conclusion

*16h10 – End to Cosmetotest 2026*
